

Roundtable Discussion: Measuring Student Success

Julie Bryant

Vice President, Student Success, RNL

Sherri Erkel

Vice President, Student Success, RNL

“

What gets measured,
gets done.

Peter Drucker

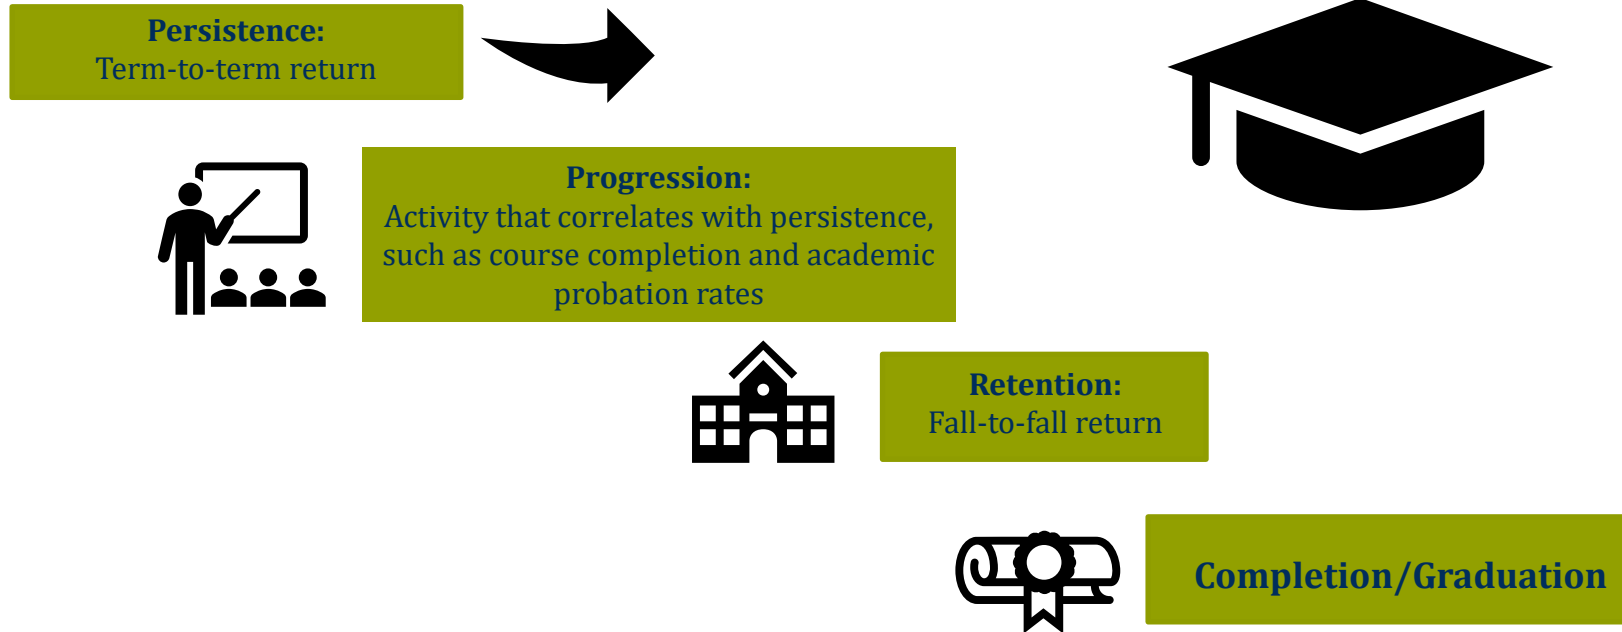

An aerial view of Earth from space, showing the curvature of the planet and the blue oceans. The image is overlaid with a semi-transparent blue gradient that darkens towards the top and bottom edges. The text is centered on the image.

Share how you feel about

DATA

Defining Retention: RNL Terms

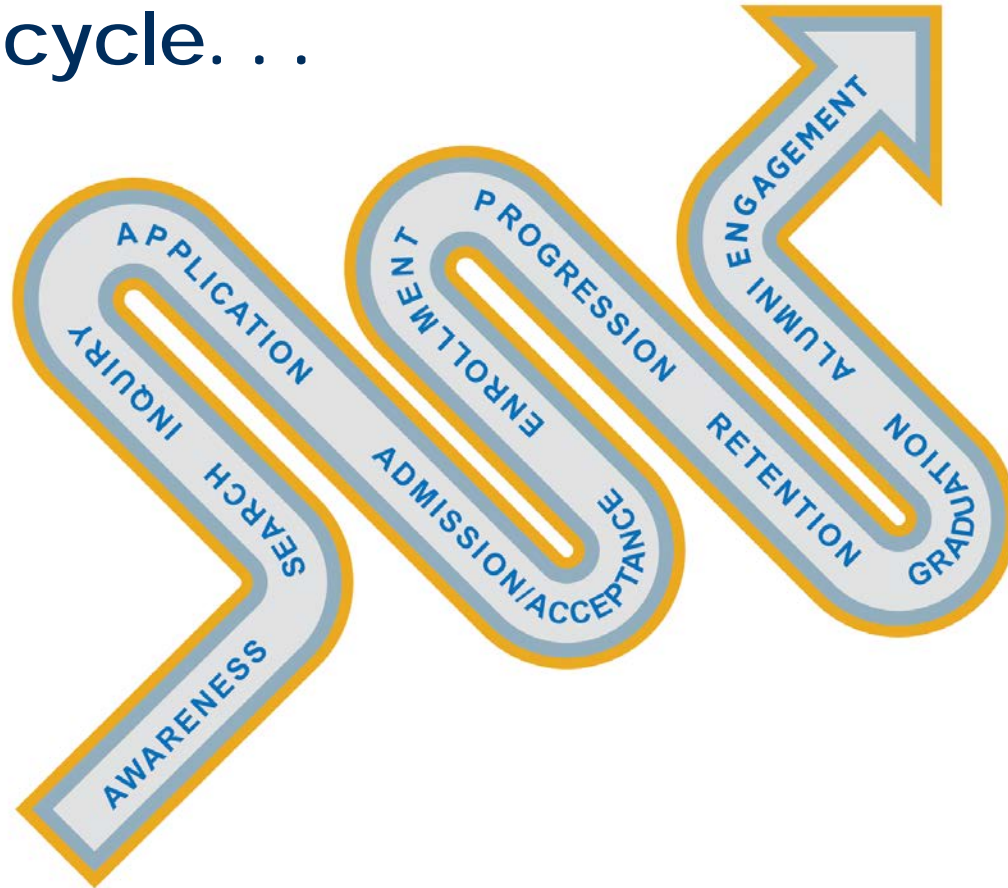

Performance Indicators

Do you know how your
institution is performing at
each point?

Data throughout the entirety of the student lifecycle. . .

Six Guiding Principles for Effective Student Success Efforts

Integrate with other programs and services

Rely on student feedback and integrate effectively

Provide quality classroom engagement

Ensure student centeredness

Empower students to develop relationships

Be proactive and intentional

Data

How are you accessing data related to student success?

- What is your campus culture around data (receptive, hungry, wary)?
- What types of data are being collected?
 - How and when?
- How, where, and with whom are the data shared?
- What could your institution do better regarding data collection and sharing?
- What data elements would give you additional insight into your current programs?
