

RNL Advanced Financial Aid Solutions for Graduate Enrollment: Leveraging Aid and Optimizing Yield

Derek Flynn, Vice President Adam Connolly, Vice President

# The Need for a Complete Financial Aid Solution

Administrators balance several scenarios:

### What if you could align those scenarios?

Enrollment Student need

Fiscal health

Everyone on the same page through sophisticated analysis, comprehensive, industryleading statistical modeling, and a financial aid awarding plan responsive to a dynamic market.

Private Four-year Institutions – First-year Students *Tuition and Fee Discounting Benchmarks: 10-year Trend* 

in average tuition and fee discount rate

© 2023 Discounting Report for Four-Year Private and Public Institutions Ruffalo Noel-Levitz, LLC

#### NACUBO National Discount Rate vs. RNL Campus Partners

NACUBO Reports since 2019; Over a 4% discount rate increase

RNL's Campus Partners since 2019; Less than 3% discount rate increase

### Key Outcomes of a Successful Aid Strategy

Enroll the students you want to enroll

Understand and manage your discount rate Maximize net revenue and optimize yield

# Strategic Financial Aid Concepts

#### **Important Considerations**

Three elements must be present for a student to enroll.

### Quality Groups as a Proxy for Willingness to Pay *Total First-year Students*

Quality Groups Fall 2023

Quality Group 1 (QG1) has the highest/strongest academic credentials

## Academic Tiers as a Proxy for Willingness to Pay

#### First-year; In-state and Out-of-state

We typically test multiple measures of academic preparation/performance as well as various academic boundaries.

#### The Strategic Financial Aid Matrix

Subpopulations are identified based on statistical analysis and your enrollment goals.

### **Key Metrics**

#### Yield

(and retention) rates by cell

### Percentage of need met

and need met with gift aid for need-based students

### • Yield by institutional gift

offer for low-need and merit-aid-only students

## Measuring price sensitivity of selected need-based students by percentage of need met. Yield rates in selected cells of a client subpopulation.

<u>Need Met</u>	Enrollment Rate	Number of Cases
<75.6%	25.9%	54 Cases
75.6%-87.0%	48.2%	83 Cases
<u>&gt;87.0%</u>	<u>49.2%</u>	65 Cases
TOTAL	42.6%	202 Cases

Measuring price sensitivity of selected need-based students by examining the *percentage of need met with gift aid.* 

Yield rates in selected cells of a client subpopulation.

Need Met <u>w/ Gift Aid</u>	Enrollment Rate	<u>Number Of Cases</u>
<53.16%	24.4%	78 Cases
53.16%-61.7%	47.9%	73 Cases
<u>&gt;61.7%</u>	<u>62.7%</u>	<u>51 Cases</u>
TOTAL	42.6%	202 Cases

Measuring price sensitivity of selected merit-aidonly students by examining the gift aid offer. Yield rates in low-need and merit-aid-only segments (ability level 3) of a client's first-year population.

<u>Merit Offer</u>	Enrollment Rate	Number Of Cases
<\$3,000	6%	30 Cases
\$3,000-\$4,999	42%	53 Cases
\$5,000-\$6,999	60%	30 Cases
<u>&gt;\$6,999</u>	<u>75%</u>	<u>12 Cases</u>
Total	39.2%	125 Cases

# What is the concept behind an effective financial aid strategy?

#### Both students receive ideal rewards

### Leveraging Analysis

#### First-year Students

		HsGpa:	3.5 - 3.89
		Enrolled	Non-enroll
	FC: \$0	Ce	ell 2
Enrolling	Number admitted Go	€ → 9	37
Student Awards	Yield / Yield change from 2021	10.3%	2.5%
	Number offered aid	9	78
	Average need	\$38,600	\$38,600
Non-Enrolling	% of need met	76.1%	73.9%
Student Awards	% of need met with gift	66.0%	<b>59</b> .2%
brudent nivaras	Average award for those offered aid	\$29,363	\$28,518
	Institutional gift	\$13,617	\$9,329
	Total gift (excl. outside aid)	\$25,474	\$22,858
	Total work and loan	\$3,889	\$5,660
	Average net tuition revenue	\$10,783	\$15,071
	Tuition & fee discount rate	55.8%	38.2%

## The Process

# What to Expect: Partnership Throughout the Process

#### **RNL Advanced FinAid Solutions Partnership**

A dedicated team of experts: Financial Aid Consultant, Campus Partner Liaison, Client Data Onboarding Specialist

# How RNL Helps You Enroll the Students You Want to Enroll

Analysis, Modeling, and Strategy

### **RNL** TrueCost Calculator<sup>™</sup>

**High School Students** rank NPCs as essential in their college search.

 $\checkmark$ 

Make your calculator work for you.

#### **Michigan Tech**

#### Estimating Your Financial Aid -Class of 2022

Our Net Price Calculator is designed to help you estimate your financial aid options for Michigan Technological University. Please be sure to complete the entire process to ensure the best

Please note that the results from this calculator are estimates only and are for those students intending to begin at Michigan Tech in 2022. Your actual scholarships will be confirmed once you receive your financial aid letter(s). Students beginning at Michigan Tech prior to 2022 can contact the Financial Aid Office for any questions

For any additional guestions, please contact the Financial Aid Office at 888-688-1885 or

Let's Get Started

#### IMMACULATA UNIVERSITY

#### **Net Price Calculator For** Freshmen

The Immaculata University Net Price Calculator is designed to help you estimate your financial aid options for Immaculata University. Please be sure to complete the entire process to ensure the best possible results.

If you've already filed a FAFSA, you will be able to enter your Expected Family Contribution and skip the financial questions. If you haven't filed vet, you will need to enter a close estimate of your family income, asset, and tax information from 2020.

If you have any questions, please contact the Office of Financial Aid by email at finaid@immaculata.edu or call 610.647.4400 ext. 3028.

### Step 1: Historical Research and Competitor Benchmarking

#### Analysis

Will show student price sensitivity and identify areas of opportunity.

#### **Enrollment**

Understand students' enrollment behavior as it relates to their need, academic credentials, population segment, and financial aid offers.

#### **Historical Visit**

Historical findings will be presented during an on-campus consultation to inform strategy development.

### **Step 2: Retention Analysis**

Impact of financial aid policies on persistence. Retention persistence.

Is there a threshold of aid below which retention is unlikely?

**Isolates the impact of** financing and academic preparation on

### Retention Analysis Benefits Informing Your Financial Aid Strategy

Measure fall-to-spring and fall-to-fall rates to the cellular levels:

- Allows you to identify and focus on specific populations.
- Are there any pockets that need special attention?

RNI

Retention rates by need level and academic rating:

- Measure the impact of awarding strategy.
- Impact of financing and academic preparation on persistence.

Understanding impact of aid award package composition:

- Focus on retention of specific students.
- Identify threshold of aid below which retention is unlikely.

### Step 3: Econometric Modeling

#### Modeling Price Sensitivity and Student Enrollment Behavior

Advanced Machine Learning Models

Two years of Historical Data

Measure the impact of aid on student's ability to enroll

Determine other factors predictive of enrollment

#### **Relative Importance of Variables**

#### **Econometric Modeling**

86.8% of campus partners had a champion model other than logistic regression.

The "tournament" approach allows your data scientist to identify the most predictive modeling technique for your campus based on your data.

#### **Price Elasticity**

#### **Describes Tuition Revenue-Generating Opportunities**

#### FinAid Scoring Analyzing Current Class Behavior on the Fly

### **Step 4: Optimization and Simulation**

Optimizing enrollment estimates based on variations of these three variables and actual results from the most recent academic year.

### Optimization and Simulation Provides Multiple Scenarios to Maximize Revenue

### Step 5: Annual Plan Development

Goals - Establish Institution-Specific Goals

#### POPULATIONS GOALS

- Admits and enrolled
- Discount rate

#### QUANTIFY THE COST

- Merit-based gift
- Need-based gift

#### **IDENTIFY OPPORTUNITIES**

- Cellular analysis
- Procedural analysis
- Model simulations

#### **Annual Plan Development**

#### A comprehensive aid strategy may have "buckets" of dollars that "roll-up" to provide a picture of anticipated results.

### Step 6: Five-year Enrollment and Net Revenue Projection Model

#### Institutional Aid Planning

Targets base on enrollment, costs, aid, and net revenue.

#### **Institutional Decision Making**

Assists in planning for present and future campus housing needs, facility needs, and academic support based on potential changes.

#### Projected Enrollment and Revenue

Illustrates the impact of student persistence on overall revenue and net revenue.

#### Step 7: Tracking Reports and Ongoing Consultation

RNL

**Regular Tracking** Strategy development and implementation Admit and Enroll Goals Population assessment

#### **RNL Smart View**

#### **Dashboards and Reporting Platform**

### **Interactive Scoring Dashboard**

#### How can aid impact yield and net revenue?

Determin	e the students you wa to impact yield	nt Simul wou	ate the amount of aid ld give pending stude	l you ents	See real time results if the would benefit your car	increas mpus
