“Stay with me...”

“Why don’t you stay?”

The background of the slide is a photograph of the Jeopardy! game show set. On the left, a large wall features the 'JEOPARDY!' logo in a stylized, illuminated font. The set is lit with blue and purple lights, and a game board is visible in the distance. Three blue rectangular boxes with white text are overlaid on the left side of the image.

Pre-Course Strategies

Consistent Course Design/ Navigation

- If available, faculty utilize a peer-developed course; they may add content.
- All courses must include a Home Page, Start Here button, Menu, and content organized within Modules.

Course Readiness Checklist

- Faculty submit a Course Readiness Checklist one week prior to the class start date.
- Faculty acknowledge inclusion/ review of 20 items (required statements, policies, etc.)
- Faculty may request assistance, generating an automated message to the Dean, Department Chair, ID Team, and/ or E-Faculty Coach.

During Course Strategies

E-Faculty Coaching

- All faculty partner with an E-Faculty Coach on a rotating basis (approximately every 2 years).
- E-Faculty Coaches observe online classes and offer feedback based on Quality Matters (QM) standards for communication, interaction, navigation, and accessibility.
- Coaches and faculty meet 2+ times per semester to collaborate.

LMS

Analytics → Automated Communications

- The LMS provides class analytics; these should be reviewed on a regular basis and following each assignment/assessment.
- Faculty may set parameters for when to send automated messages.
- Messages may be crafted in encouraging and personalized formats.

Flexible Late Work Policies

- Remember, “zero tolerance” policies do not align with federal law. There are exceptions!
- Avoid harsh, absolute language when framing policies.
- Consider a team approach- what you may expect of me, what I may expect of you.
- Avoid locking assignments following a due date.
