

GlobalMeet® Online Meeting & Events Software

Our GlobalMeet platform of solutions is built to serve the end-to-end needs of businesses. We provide solutions for every communications use case, from small, one-on-one personal meetings to training events to larger town hall events and large-scale webcasts. Learn more about how our collaboration and webcast solutions together can help connect your internal and external external customers with a fantastic user experience on one intuitive platform.

GlobalMeet Collaboration & Webcast - Better Together

Good news - we have your meetings and virtual events covered. Use GlobalMeet for all of your collaboration needs and never think about using multiple tools again. Need to run a team meeting with 20 participants or stream a global town hall? No problem.

GlobalMeet Collaboration is an ideal fit for all of your everyday meetings with up to 125 participants including the highest quality Dolby audio, HD video and screen share. And when you host a larger event, GlobalMeet Webcast provides functionality, admin controls and global capabilities to manage and scale your event to any size audience, on any device, using a single URL. The solutions really are better together - and provide you with myriad of benefits:
