

GlobalMeet[®] Webcast

Virtual Classrooms

Delivering education continuity is top of mind as schools everywhere struggle with challenges and hosting classes in person. We're here to help. With GlobalMeet Webcast, we can quickly set up webcasts for hundreds or thousands of students, ensuring success for your virtual classrooms.

Features:

- Video broadcast important messages to thousands with a simple click
- Record classes or key school updates that can be stored and replayed
- Deliver classes live, simulated-live or on-demand
- Enrich teaching and learning with dozens of engagement tools to keep your students captivated
- Access comprehensive analytics & reporting to understand your webcast audience engagement and maximize school resources

Hosting Virtual Classrooms:

GlobalMeet Webcast offers many options for you to quickly and easily maintain communications with your students.

Available anywhere you have an internet or phone connection, our enterprise-grade streaming solution keep your virtual classrooms productive, no matter the challenges.

Skip the trip and host events with students and faculty from anywhere, anytime.

Check out our new video introduction to webcasting [here](#) or [contact sales](#) directly to discuss how GlobalMeet Webcast can help.
