This report details the changes in Andrea's self-reported scores on the College Student Inventory (Pretest) to now. The percentile ranks for both the Pretest and the Mid-Year Student Assessment show how the scores compare to a larger sample of college students from across the country. Specifically, they indicate the percentage of students whose scores are equal to or less than those shown on this report. (In the absence of a Pretest, Motivational Assessment scores will not appear.)
