HELP YOUR STUDENTS GRADUATE

StraighterLine's college courses are 100% online and can be used to help retain students at risk of stopping out and not completing. Join the hundreds of colleges and universities referring their students to StraighterLine each month to help students overcome challenges such as:

FINANCIAL AID CAPS

Financial pressure is the number one reason students are forced to stop out. Our courses (starting at \$59 + \$99 monthly membership) help address affordability concerns and **provide a lifeline** to students facing financial aid limits.

SCHEDULE FLEXIBILITY

Don't lose students because of scheduling conflicts. **Our classes are always available.** Days, nights, weekends, and during breaks. A great summer term option, students can make productive use of time prior to program start date.

WORK-LIFE SITUATIONS

Life can be unpredictable for working students. **Self-paced courses** work for students no matter their schedule. Students can start and stop their courses as needed and complete as quickly as they are able.

OUT OF ATTENDANCE

The transition back to school can stop students in their tracks. Ease out-of-attendance students back into enrollment by having them **complete StraighterLine courses before they return.**

SATISFACTORY ACADEMIC PROGRESS

Provide students **a way back to degree completion.** Students who have failed to make satisfactory academic progress can fulfill credits, be readmitted, and complete their degree.

WHAT YOUR STUDENTS CAN EXPECT

We deliver over 60 fully online gen-ed courses. Your students can enroll in as many courses as they need to help them make progress towards their degree. With no start or stop dates, students can begin courses at any time and finish them completely on their schedule.
